

WALVIS BAY ROUTE

www.namabptyltd.com

Highlights: Coastal Scenery, Dune Driving, Shipwrecks, Abandoned Mining Towns, Exclusive Angling & Camping at Reutersbrunn (tented camps)

Itinerary: Our Walvisbay tour is very relaxed - we spend less time navigating the desert and more time at leisure in our Reutersbrunn (tented camps) and the surrounding area. This is the perfect option for those interested in photographing the desert, well-known ship wrecks and old mining towns. It is also our best option for the serious fishing enthusiast as our camp is located on Meob Bay one of the best fishing spots on the African west coast. We angle strictly according to our concession rules and offer an amazing catch and release opportunity to hook some of the best specimen of Atlantic fish species. For the 4x4 enthusiast we do still have plenty of opportunity to test grit and brawn with some serious dune driving areas near our camp location.

The Walvisbay option is the most versatile and flexible tour option we have, and guest groups can tailor made their program as they see fit and according to their personal interest, also perfect for corporate getaways that can offer many options to our guest.

The evening before departure in Walvisbay / Swakopmund, guests have to arrange their own accommodation for own account. We can advise on accommodation options if requested.

Time and place of commencement (departure time will depend on the tides for that particular day or season) of the tour, will be advise the evening before. We will navigate a coastal route with some challenging dunes and various places of interest for about 6 to 8 hours until we reach our Campsite.

The remainder of the days we spend in leisure at our camp and guest can choose from angling in one of Africa's best fishing spots, experience off-roading in the dunes some more, or go explore some of the various abandoned mining towns. Or, simply just soak up the sun while relaxing with a good book at camp. After an exciting fishing and relaxed day, we like to spoil our guest with fresh fish prepared our secret way for supper.

In the afternoons we enjoy sundowners as we welcome the cool desert night and get cosy around the camp fire in our boma, sharing good food, fireside adventures and nursing new friendships. At camp fire every night we will confirm the following day activities according to the group dynamics and request we have received from guest.

The last day is a constant drive to reach Walvisbay by early afternoon, hence providing ample time for the group to have a last dinner together (for guests own account) and enough time for the group to split up and all make their separate ways to the next destination.

This tour is perfect for the family and much more suited to cater for both the fairer sex and youngsters. Also being of short duration it tends to be favoured more by the corporate market with limited time for such incentives.

Standard Walvisbay/Meob Bay Adventure:

What we offer:

We offer two types of adventures based on our various Eco-tour routes, these include Self-drive and Guided FIT tours. We only offer the above two variants in group packages. Minimum and maximum amounts of guests will apply to such a tour. We can easily accommodate up to 40 guests per group, but with a limit of 12 vehicles per permit per trip. For more than 12 vehicles in one group, a second permit has to be applied for.

Guided Packages:

The guided packages are fully inclusive and include all meals, guides, equipment, accommodations and relevant permits. All guests need to provide own personal items like clothing, toiletries, towels and preferred special beverages not covered by our basic selection. A complete list of items provided by the company, and guests responsibilities will be forwarded to the client, once the trip was booked.

Self-Drive Packages:

We provide three meals a day consisting of breakfast, lunch and supper. This includes tea, coffee and fruit juice per meal. On the first day of departure the guest will be providing their own breakfast pack and the last day we only provide a steadfast breakfast. We provide guides, recovery vehicles and all relevant equipment.

Guest must provide own suitable off-road vehicles, fuel, camping equipment, beverages and other items as described within the relevant section of our booking form.

We also provide the above options and below route in a photographic version, whereby you are guided by one of our local professional photographic guides. The itinerary is specially adapted to suit photography better and provide ample time to take that perfect desert picture and with very experienced guidance from your photographic guide.
